| Centre number     |        |       |      |       |         | Candidate number   |  |  |
| First name(s)     |        |       |      |       |         |                    |  |  |
| Last name         |        |       |      |       |         |                    |  |  |

#### **INSTRUCTIONS**

- Use black ink.
- Write your answer to each question in the space provided. If you need extra space use the lined pages at the end of this booklet. The question numbers must be clearly shown.
- · Answer all the questions.

#### **INFORMATION**

- The total mark for this paper is 105.
- The marks for each question are shown in brackets [ ].
- Quality of extended response will be assessed in questions marked with an asterisk (\*).
- · This document has 16 pages.

#### **ADVICE**

· Read each question carefully before you start your answer.

### **SECTION A – Core studies**

Answer all the questions.

| 1 | Compare Blakemore and Cooper's (1970) study with Maguire <i>et al.</i> 's (2000) study suggesting one <b>difference OR</b> one <b>similarity</b> between them. |
|---|--|
|   |  |
|   |  |
|   |  |
|   |  |
|   |  |
|   |  |
|   |  |
|   | [4]  |
| 2 | Outline <b>one</b> ethical issue raised by Gould in his 1982 review of Yerkes' study of intelligence testing in America.                                       |
|   |  |
|   |  |
|   |  |
|   |  |
|   |  |
|   | [3]  |

| 3 | (a) | (i)  | Explain <b>one</b> weakness of the type of data collected in Loftus & Palmer's (1974) study into eyewitness testimony.                     |
|---|-----|------|--|
|   |     |      |  |
|   |     |      |  |
|   |     |      |  |
|   |     |      | [3]  |
|   |     | (ii) | Outline <b>one</b> conclusion that was drawn from this study.  |
|   |     |      |  |
|   |     |      |  |
|   | (b) | (i)  | Simons and Chabris (1999) used an independent measures design in their study on attention.  Explain how the design was used in this study. |
|   |     |      | Explain flow the design was ased in this study.  |
|   |     |      |  |
|   |     |      | [2]  |
|   |     | (ii) | Outline <b>two</b> weaknesses of using an independent measures design in this study.   |
|   |     |      |  |
|   |     |      |  |
|   |     |      |  |
|   |     |      |  |
|   |     |      | [41]   |

| 4 | 4 (a) | (i)  | Give <b>two</b> features of the sample used in Bandura et al.'s (1961) study into aggression.   |     |
|---|-------|------|---|-----|
|   |       |      |   | ••• |
|   |       |      |   |     |
|   |       |      | [   | [2] |
|   |       | (ii) | Outline <b>one</b> way in which this sample was biased.   |     |
|   |       |      |   |     |
|   |       |      |   |     |
|   |       |      |   |     |
|   |       |      |   | 21  |
|   | (b)   |      | alberg's (1968) study of moral development raises a number of issues of validity. scribe <b>two</b> issues of validity in this study. | _   |
|   | (b)   | Des  | nlberg's (1968) study of moral development raises a number of issues of validity.   |     |
|   | (b)   | Des  | alberg's (1968) study of moral development raises a number of issues of validity. scribe <b>two</b> issues of validity in this study. |     |
|   | (b)   | Des  | alberg's (1968) study of moral development raises a number of issues of validity. Scribe <b>two</b> issues of validity in this study. |     |
|   | (b)   | Des  | alberg's (1968) study of moral development raises a number of issues of validity. Scribe <b>two</b> issues of validity in this study. |     |
|   | (b)   | Des  | alberg's (1968) study of moral development raises a number of issues of validity. Scribe <b>two</b> issues of validity in this study. |     |
|   | (b)   | Des  | alberg's (1968) study of moral development raises a number of issues of validity. Scribe <b>two</b> issues of validity in this study. |     |

| 5 | (a) | Explain how Milgram's (1963) study into obedience can be related to the social area.  |
|---|-----|---|
|   |     |   |
|   |     |   |
|   |     |   |
|   |     |   |
|   |     | [3]   |
|   | (b) | Explain the extent to which Bocchiaro et al.'s (2012) study into disobedience changes our understanding of individual, social and cultural diversity. |
|   |     |   |
|   |     |   |
|   |     |   |
|   |     |   |
